

HASA Liquid Feeder™ Safe, Clean and Clear Water

Better water quality results.
Enhances clarity and provides more brilliant sparkle.

Saves time and money!

Backyard pool sanitization made easy!

The HASA Liquid Feeder™ is a state-of-the-art daily sanitizer system designed to automatically feed swimming pools using our high performance liquid sodium hypochlorite. Ideal for Pool Professionals or Pool Owners looking to keep pools Safe, Clean, and Clear without the hassle of increased CYA from trichlor tablets year round.

- **Simple & non-electrical**
- **Eliminates need for tab floaters in your pool**
- **Easy to install and maintain**
- **Best cost per use**
- **Feeds whenever the filter pump is running**
- **Adds no additional CYA or calcium**
- **Adds time between fills for extended visit times if needed**
- **Perfect for backyard pools**
